

Bennett Silks Limited, Stockport

Mike Bennett said:

"We love Sharp-aX because it is just so easy to use, powerful and Flexible"

Fabric companies rely heavily on being able to identify fabric matches and shades quickly to fulfil repeat orders and match samples – The Sharp-aX Serial/Batch Tracking does the job!

With over 100 years of experience Bennett Silks is the UK's leading wholesaler and convertor of silk fabrics.

Founded in 1904 by William Henry Bennett in Manchester - the heart of Britain's Textile Industry.

Having started out as an agent for many types of fabrics, primarily for the clothing industry, the company rapidly expanded and decided to deal only in top quality fabrics of which silk was the obvious choice. Thus William Henry Bennett became one of the twentieth centuries first Englishman to establish trade links with the Chinese Silk Fabrics Industry, links which are still strong today.

Still entirely in Bennett family's hands – now run by William Henry Bennett's great grandson Mike and his wife Joyce who are leading the company through further expansion with the establishment of substantial silk weaving interests in Europe, India, China, Thailand.

Renowned for Italian silks & traditional English designs printed in Macclesfield, England's historic silk town. These designs, combined with more contemporary woven and printed silks now feature eighteen individual collections.

With a secure UK customer base, Bennett Silks is expanding worldwide supplying many leading fashion, interior, contract and retail clients.

In 2016 a majority shareholding was purchased in French weaving mill FCN Textiles (formerly TBM Soires), providing Bennett Silks its own European production facility in the heart of the French silk area.

MNO

This acquisition enabled the creation of Bennett Silks Europe to counter the extra charges and complications inflicted on EU customers since Brexit.

Bennett Silks EU customers deliver exactly as they always have with no extra charges or delays.

Collections are secure with large stocks held in the Stockport warehouse together with a quick and efficient stock cutting service and a bespoke service for dyeing/printing exclusive colours or designs.
